

Retail designer

Profile

We are looking for an enthusiastic retail designer to join our design team.

Job functions

- **Work closely** with the client serving team to interpret client briefs to develop design ideas, layouts and 3D perspective drawings
- **Present** concept ideas for briefs including layouts, structures, display, colours, textures
- **Design** store environments, store fixtures, event and activation spaces through an understanding the importance of creating experiential design environments that compliments the Omni-channel
- **Consider** the requirements of construction, installation and fit-out with an awareness of the properties of materials during the design process
- **Prepare** 2D sketches and where necessary using computer assisted design (CAD) to prepare detailed scale technical drawings for contractor briefings/fabrication

Skills

- Passionate in the retail industry with a strong eye for detail.
- Min 1-2 years' experience in retail, ideally with luxury and beauty experience
- Hands on, results-oriented, self motivated and ability to adapt to changing dynamics of client requirements with tight deadlines.
- Ability to work closely with the account service and the design team to develop breakthrough creative ideas and develop designs all the way to execution
- Entrepreneurial spirit with an ability to identify opportunities for design to make a business impact.

Qualifications

- Degree in architecture, interior/retail, or related field.
- Excellent skills in design software Sketchup, 3DMax and Photoshop
- Working Proficiency in AutoCAD and Microsoft Office program PowerPoint
- This position is only open for Singaporean/PR
